

# You Can Make the World a Better Place (and We're Here to Help)

Better Together Grants are **small community grants of up to \$500** for projects or activities that bring people together to make your community a better place.

Oregon Council on Developmental Disabilities (OCDD) created these grants to help people get together to do things they enjoy, include people with disabilities, and make a difference in their communities.

This is our way of helping Oregon communities become more welcoming and inclusive of people experiencing disability.

## Funds can be used to purchase things to make your project successful

You might need gardening tools, craft supplies, refreshments or knitting needles to get a group going. Or, you may need sports equipment, smartphone apps, or books for a group you are already a part of.

Can you involve your neighbors with and without disability in something you love to do or care about? Tell us your idea and we'll help you get it done!

## You just need three things to apply!

- 1 An idea,
- 2 At least four people willing to contribute their time, energy and talents, and
- 3 A way to involve a person or persons with disability in the planning or doing.

## It's easy to apply!

- 1 Contact us at **(503) 235-0369** or **info@ocdd.org** to request an application.
- 2 Complete and return your application to us.
- 3 We'll get back to you with a decision in two weeks!

We are happy to answer your questions and help you apply. We look forward to hearing from you!
