

## Better Together Grants

### Submitting Your Story

We'll send you remaining grant funds after we receive a short written or video story that describes what you accomplished. We are collecting stories to spread the word about what you did and inspire others to do something similar in their own community.

At the end of your project, send us a one-page written story or a two to three-minute video describing what happened as a result of the grant funds. Videos can be simple and shot from a cellphone. Have fun and be creative!

### Tips

We want to know what you did from start to finish. Below are tips to tell your story.

- Start writing your story or creating your video at the start of your project.
- List the steps you want to write about or film and record what happens.
- Shoot video of people talking about what you're going to do, purchasing items, or the first time you meet to take action.
- Email us a link to your video story or mail it on a memory stick to the address below.

### In your story, let us know:

- What community you live in
- Who was involved
- Descriptions or video of different parts of your activity to show what you did.
- People describing what they liked about being involved
- A least one person with a disability describing what they did and what they liked
- People talking about the benefit to the whole community

### Send your stories to:
